A Meaningful Experience in Tubman Country

**DESCRIPTION:** Harriet Tubman Underground Railroad State Park is one of the smallest parks in the Maryland State Park system, however, we weigh heavy on your heart. Here in Tubman Country, we interpret the life and legacy of Harriet Tubman, focusing on her formative years spent enslaved in the Choptank River region of Maryland. Learn about this great American shero and how we cultivate an environment that encourages all of our guests to form a personal connection to this daughter of Maryland and how we interpret the painful history of American Slavery.
